Benefits of Reiki Energy

When the flow of the "Life Force Energy" is disrupted, weakened or blocked, emotional or health problems tend to occur. Imbalances can be caused from many situations occurring in our lives, such as: emotional or physical trauma, injury, negative thoughts and feelings, including fear, worry, doubt, anger, anxiety, negative self-talk, toxicity, nutritional depletion, destructive lifestyle and relationships, neglect of self and lack of love for oneself or others, from emotions that are not expressed in a healthy way. Some of today's most serious health concerns such as heart disease, anxiety disorders, depression, obesity and immunity disorders, are caused by or are related to stress.

Reiki is for everyone: it heals adults, babies, toddlers, children, and elderly. Reiki Healing Energy provides means to balance the human energy fields (Auras) and energy centers (Chakras) to create conditions needed for the bodies healing system to function. The energy that is channeled from the hands of a Reiki practitioner is said to "break up and wash away" negative thoughts and feelings that are stopping the flow of your life force energy, leading to improved mental and physical health. Because Reiki operates from the healing band of universal energy (non-denominational religiously) which is outside of time and space, Reiki can be applied at distance and can be used to offer healing to past and future events as well as to karmic issues.

Reiki has applications for use during life transitions such as pregnancy and childbirth; transitioning into death (Hospice); and relationship changes. It is also indicated during and after surgery and medical procedures; healing constricted relationships; releasing emotional blockages; developing psychic intuition; releasing emotional trauma; manifesting goals and intentions; and enhancing spiritual growth. Reiki is being used in hospitals to assist cancer patients and treat wounds and it is currently being applied to work with traumatized veterans.

There are many hospitals which have programs that incorporate Reiki into the clinical setting. Program administrators, staff and patients report a number of benefits including reduced anxiety and lower use of pain medications, increased patient satisfaction for surgical patients, and decreased numbers of self-reported common gerontological complaints such as anxiety, loneliness, insomnia, and pain among older individuals living in the community.

There is a clear connection between the condition of a chakra and the condition of the corresponding organ. A chakra can be over active, under active or in balance. Using Reiki can give the chakras balance and the organs and major glands health.

- **The root chakra** belongs together with the large intestine and the rectum. It also has a certain influence on the function of the kidneys. It also relates to the adrenal gland.
- **The navel chakra** belongs to the reproduction system, the testicles and ovaries and also the urinary bladder and kidneys. It also relates to the ovaries or testicles.
- **The solar plexus chakra** is in relation to the liver, gall bladder, stomach, spleen and the small intestine. It also relates to the pancreas.
- **The heart chakra** belongs to the heart and the arms. It also relates to the thymus.
- **The throat chakra** relates to the lungs and the throat. It also relates to the thyroid gland.
- **The third eye (forehead) chakra** belongs to the brain, face, nose, and eyes. It also relates to the pituitary gland.
- **The crown chakra** does not have a corresponding organ but is related to the whole being. It also relates to the pineal gland.
